Java Full stack Developer

Dear Hiring Manager,

I am writing to express my interest in the position of Java Full Stack Developer. With a robust background in engineering technology and extensive experience with Java-centric applications, I am enthusiastic about the opportunity to contribute to your team.

In my recent role as Engineer-Technology at Virtusa Consulting Services Pvt Ltd, I honed my skills in Java, Groovy, and Python among other technologies. Over the past 4 years, I have developed, deployed, and maintained numerous applications using Java frameworks like Spring Boot and have worked extensively with Microservices architecture. My experience also includes implementing REST APIs, managing SQL databases, and utilizing CI/CD tools like Jenkins and Docker.

I possess a strong set of skills that include HTML, CSS, JavaScript, Git, and AWS, complemented by key strengths in problem-solving, collaboration, and communication. My technical support, network administration, and project management skills have consistently led to improvements and successful project completions.

I hold a degree in Computer Science from the University of Central Missouri, which has provided a strong foundation for my technical abilities.

I am eager to bring my expertise in software development and my continuous improvement mindset to your company, ensuring high-quality solutions for your clients and stakeholders. You can reach me at your convenience to discuss how my background, skills, and enthusiasms align with the needs of your team.

Thank you for considering my application.
